

Shortage-Overage Orders

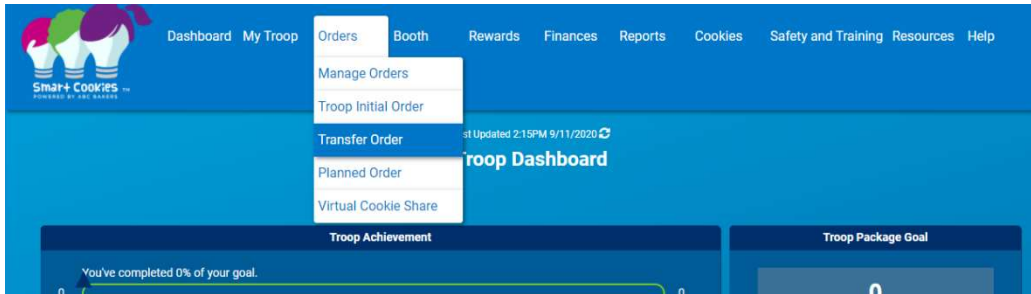

It is important as a Cupboard Manager to accurately track Cookie Drop inventory discrepancies you rectify, whether they are shortages or overages. All transfers are done in **CASES**. There is one type of transfer available for troops in Smart Cookies. Troops should print out their confirmation letter from GSHCC Customer Care and provide that to you for your records. *Please note this is a different from damage orders.*

- **Cupboard to Cupboard (C2C)** – You will transfer the cases of cookies through a Cupboard-to-Cupboard transfer.
 - **If there is a shortage (the troop did not receive all cookies from their Initial Order):** The “from” Cupboard will be your Cupboard and the “to” Cupboard will be listed as Shortages-Overages.
 - **If there is an overage (the troop received more cookies than were in their Initial Order):** The “from” Cupboard will be the Shortages-Overages and the “to” Cupboard will be listed as yours.
 - Ensure orders are not processed as Troop to Cupboard or Cupboard to Troop transactions as this will impact troop inventory. If a troop was shorted, they were already assigned the inventory and a Cupboard transfer would duplicate the inventory. If a troop received overages, they were never assigned the inventory and a Cupboard transfer would incorrectly decrease their inventory.
 - Ensure orders are not processed to any other Cupboard. These transfers would incorrectly affect another Cupboard’s inventory. Keep in mind the transfer is not being made to another physical Cupboard so the Shortages-Overages Cupboard is a balancing Cupboard.
 - If troops do not have their printed email, be sure to write a receipt after you have verified they received the email (they can show you on their phone)

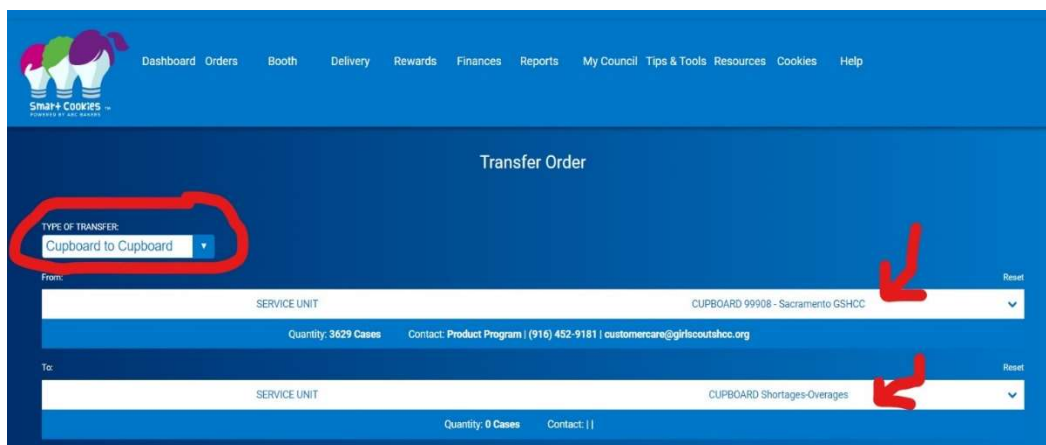

- Inventory discrepancies should be resolved within 1 week of Cupboard opening day (February 23) as some varieties are not restocked closer to the end of the cookie program. If you have the inventory after this timeframe, you can still help rectify.
