Customer Experience: In-Person Delivery Order

Step 1: Customers either find a link to a Girl Scout’s site through a mutual connection, or receive a Girl Scout’s email announcing that cookie season is open. In the email, the customer clicks the “Order Cookies” link and is taken to the Girl Scout’s Digital Cookie site.

Step 2: As customers order packages, the total amount updates. After selecting the cookies, customers will select the delivery method and can choose to have the order delivered in person by selecting the option “Have Girl Scout Deliver the Cookies.”

Once customers are satisfied with their order, they will simply click the “Checkout” button.

This block contains two screenshots of the Digital Cookie website interface. The left screenshot shows a product list with a callout "Customer enters package quantity" pointing to the quantity input field. Below the list is an "ORDER SUMMARY" section with a "CHECKOUT" button, which has a callout "Checkout". At the bottom, there are delivery method options, with a callout "Select Delivery Method" pointing to the "Have Girl Scout prnlpjl deliver the cookies" option. The right screenshot shows a detailed view of the selected items and delivery options, with a callout "Same check out view regardless of baker." pointing to the "CHECKOUT" button.

Step 3: Customers are then taken to a checkout screen to complete basic delivery and billing information.

The next screens (Order Preferences, Connect with Girl Scouts, and Payment Details) ask customers to:

- Choose a second option if Girl Scout delivery is not approved.
- Indicate if they want membership or volunteer information (optional).
- Share if they were Girl Scouts (optional).
- Complete credit card information.

Once customers have completed the information and clicked continue at each step, they will click the “I am not a robot” box (not pictured) and the “Place Order” button.

Then an email is sent indicating the order has been approved. If the order has been declined, an email is sent notifying customers and giving them the option to place a new order to have cookies shipped or donated.

An email thanking customers for their support and asking them to complete a quick survey can be sent by the Girl Scout. Remind your Girl Scout she can also send a personal note to the customer. Customers are more likely to purchase cookies from her again after receiving the personalized letter.

After the order is delivered, don't forget to log back into Digital Cookie to mark the order as delivered. This will send an email to let your customer know the order was delivered. Additionally, it will remove it from your inventory.
