

# Spaced Out Adventures

## June 15 – 19 • Yuba City

Travel through the outer limits of space and explore all that the universe has to offer. Journey with us as we travel past bright stars, whirling planets and through the ever changing galaxy! Create your very own space alien, walk on the moon's surface, or take a trip through the constellations. Who knows, maybe you'll even discover your very own corner of the universe! You'll find all this and more during our trip through space. Try new craft projects, sing, play games, meet new friends, make lasting memories, and for one night your whole group will sleepover in camp together. Day Camp . . . a great way to build your courage, confidence, and character!
