

DELIVERY SYSTEMS

This year we will be using two different types of delivery systems to distribute Girl Scout Cookies to troops:

- Service Unit Location Drops
- Mega-Drops

Each Service Unit has been assigned to a delivery system that best fits their needs at this time. We hope that troops within those service units will be open to which ever sytem has been assigned to them.

Service Unit Location Drops

This is a system where the service unit finds a location such as a fire station, school, church etc. within their boundaries for the Girl Scout Cookies to be delivered. Troops come to this location on the day the cookies are delivered and pick up their orders. All cookies are picked up on the same day.

Dry Creek	Yomar	Pacheco
Lodi	Tracy	Beale
Miwok Trails	Sierra Trails	New Calaveras
Placerville	Sierra Pines	El Dorado Hills
Bear River	Forty Niner	Golden Timbers
Colusa	Olliyuma	Northern Mines
Davis	Riverbank	Woodland
Yolano	Foothill Gold	Tioga
Rio Encina		

Mega-Drop

This system is where trucks will be brought out to a location chosen by the council and troops from more then one service unit will come to pick up their cookies from this spot. There will be service unit and council staff present to check troops in and out and to assist with the loading of the Girl Scout Cookies into their vehicles.
