

TRAINING AT A GLANCE BY AREA

The good news is: our council contains 18 counties so we can offer a lot of adult education opportunities. The downside is: it can be hard to find the classes in your area within the long lists in the calendar. These pages were created to help you find classes that are closer to home. We have created listings for the North Area and the South Area. The North Area listings show classes offered from Sacramento County north, the South Area shows classes offered from San Joaquin County south. For details about the classes, please look in the remainder of the calendar.

South Area Listings

New Leader Basics
