

## •Eco Wecko Wild•

### June 28 – July 2 • Elk Grove

Did you know that there are more than 19 distinct ecosystems here in California? Come visit just a few of them with us! Play games, discover crafts, and participate in activities that all relate to the vast California ecology and get a little “Wecko” while you do it! Explore what is “Wild” in California; from the ocean to the desert, to the forests and our cities. Girls will learn all about our specialized ecosystems here in California and discover unique things about wildlife, plants, and the ecologies that surround them. Surprise guests will join us throughout the week - confirmed guest, *WildThings!* will join us one of the days. We will also participate in an ecology related service project. Activities will fulfill camp specific Try-It, Badge, and Interest Project requirements.
