

Personalized Patch

Girls, troop and service unit fall product managers can create their very own personalized patch when they reach the goal during the Fall Program. Follow the steps below to create your very own patch!

1. Log in to M2 System (gsnutsandmags.com).
2. Click on **Personalized Patches** under the **Rewards & Patches** section of your dashboard.

3. If address has not been selected the status will say **Action Required** Click on the name to update the patch.
 - You can check the status of the patch at any point during the program.

4. To update or create the personalized patch. Click the name and enter in all the required information. This includes the name on the patch, the background and the mailing address. Click **Save** to finish.
- **You must first create your avatar before you can create your personalized patch.**
