

## Selecting Girl Rewards

Girl Scouts are able to select reward options as they are earned in M2. Selections must be made by October 20, 2021. Troops can make selections as well. **Service units do not have access to edit rewards.**

1. Log in to M2 system (gsnutsandmags.com).
2. Click **Rewards** under the **Rewards & Patches** section on your dashboard.

3. If you are the troop fall product manager, you will see a list of girls in your troop that earned rewards, select the girl whose reward you want to edit by clicking on their name.

4. Select the preferred reward option. You only need to select rewards at levels with options. All other rewards with no option will be automatically added to the girl's profile.
5. When you are finished selecting rewards, please click **Update**.
