Participating Online

Beginning September 20, girls can create an online account in the M2 system (see details on right for more information on getting started).

Within her online account, she creates an avatar with her own virtual likeness, enters e-mail addresses and creates a personal message to send to family and friends. As a way to increase her sales, we also suggest she record her voice for her avatar or upload a personal video explaining what she is learning and what her goals are. She then launches her campaign and her personal message is sent with links for her customers to shop for magazines and/or candy/nut items.

Girls should create their online account and send out emails early in the program to allow maximum time for their customers to make a purchase.

Payment is collected at the time of order via credit card for all products ordered online (including Girl Delivered candy/nut items). Direct Ship items and magazines are shipped directly to customers.

All orders placed online, including Girl Delivered orders, are automatically added to the M2 system so parents need not record/enter any online sales.

We Appreciate You!
Thank you for being an integral part
of the Fall Product Program
